WALL PROTECTION

Window Film Options

Printed window films can be an effective way to infuse color and design into otherwise plain glass windows, partitions, and doors. In addition to their aesthetic appeal, printed films can also be used to add privacy, control light, improve way-finding, and more.

All of our window film products are printed on our high performance, **scratch-resistant, Optically Clear Polyester Window Film**.

We offer three basic options for window film:

STANDARD REPEAT WINDOW FILM

- Standard Repeat Window Films are a curated selection of **repeat-pattern designs** meant to be installed horizontally across the glass.
- They can be found both in the Level books and online as Standard Repeat Window Film, and **samples are available** if needed.
- They are printed in either white ink or (only where indicated) in a frosted glass effect.
- Although **not customizable** as-is, custom options are available (ask your sales representative for details).
- Available in two standard sizes (**no need to measure**), sold by the roll:
  40" Tall x 120" Roll/Repeat
  59" Tall x 180" Roll/Repeat

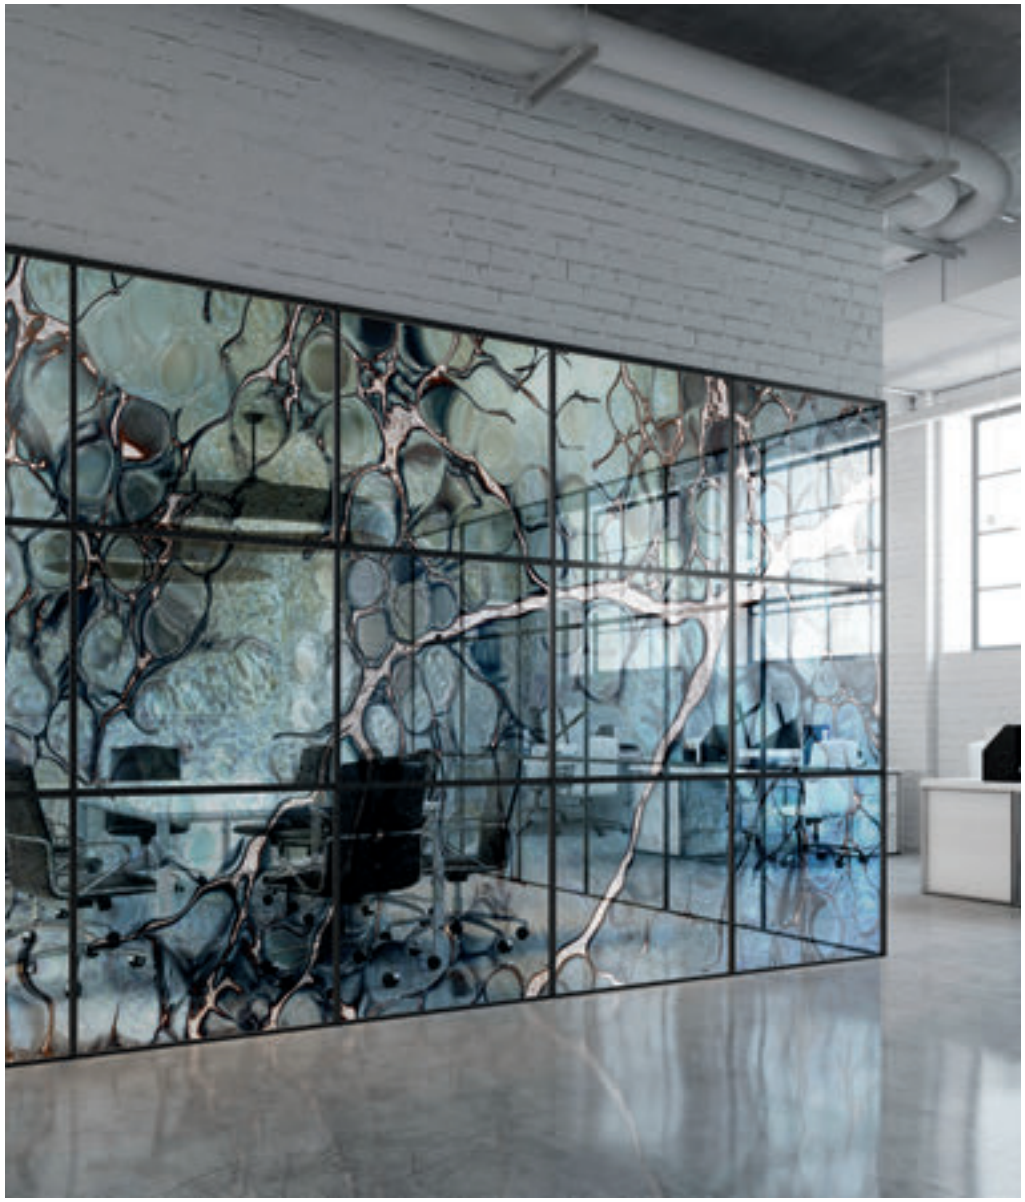
WINDOW FILM MURALS

- Window Film Murals, like our wallcovering murals, tend to be full height, "feature wall" applications.
- They can be found both in the Level books and online as window film designs, and **samples are available** if needed.
- Window Film Murals come in a variety of styles featuring **privacy options**, **stained glass effects**, **frosted effects**, and more.
- **Colors and effects can be customized**.
- Window Film Murals are all sized to specifications.

CUSTOM WINDOW FILM

- Any design in the Level collection can be custom-specified on window film.
- Customize scale, color, effects, opacity, and more.
- Using our resources and print technologies to achieve your vision, we can help you create custom window film from scratch, or from your provided art.
- A variety of tools are available to help you create your custom window film. Ask your sales representative for details.

NOTE: Metallic effects are not available on window film.



Example of Window Film Mural with Color Ink and Stained Glass Effect
Featuring L91709FFG Raindrops (from Series 9)

Example of Custom Window Film with Color and White Inks
Featuring L33706 Ginkgo (from Series 3)

Example of Custom Window Film with Color Ink and Frosted Glass Effect
Featuring L31134CD Central Park (from Series 3)

LSWF023-40 Lineae - Standard Repeat Window Film

Standard Repeat Window Film

Our Standard Repeat Window Films are a curated selection of repeat-pattern designs printed on high performance Optically Clear Polyester Window Film.

- Printed in white ink or (only where indicated) in a frosted glass effect
- No need to measure; simply order by the roll - the film is meant to be installed horizontally across the glass.
- Available in two standard sizes:
  - 40" Tall* x 120" Roll/Repeat
  - 59" Tall* x 180" Roll/Repeat

LSWF021-40 Synthesis - 40" x 120"
LSWF021-59 Synthesis - 59" x 180"

LSWF022-40 Fusion - 40" x 120"
LSWF022-59 Fusion - 59" x 180"

LSWF023-40 Lineae - 40" x 120"
LSWF023-59 Lineae - 59" x 180"

LSWF023-40F Lineae Frosted - 40" x 120"
LSWF023-59F Lineae Frosted - 59" x 180"

*This is the height of the actual printed pattern. There is an additional 1" of unprinted film on each edge, so the actual film measures 42" tall / 61" tall.

Acoustic Options

In need of sound control? Ask your sales representative about our new Sibilance® High Performance Acoustic Felt or our Nimbus® wrapped acoustic panels. Whether you're specifying a Level design or supplying your own artwork, we have an acoustic solution for you!

We currently offer three basic acoustic solutions:

STANDARD REPEAT ACOUSTICAL WALLCOVERING (on Sibilance®)

- Standard Repeat Acoustic Wallcoverings are a curated selection of **repeat-pattern designs** printed via dye-sublimation on our **Sibilance® High Performance Acoustical Felt**.
- This product is **installed directly to the wall**, similarly to traditional vinyl wallcovering.
- They can be found both in the Level books and online, and **samples are available**.
- Although **not customizable** as-is, custom options are available (ask your sales representative for details).
- Sold by the yard.

CUSTOM ACOUSTIC WALLCOVERING (on Sibilance®)

- Any design in the Level collection can be custom-specified on **Sibilance® High Performance Acoustical Felt**.
- This product is **installed directly to the wall**, similarly to digital vinyl wallcovering.
- **Colors and scale can be customized**.
- Custom acoustic wallcoverings are all sized to specifications.

CUSTOM ACOUSTICAL PANELS (on Nimbus®)

- Any design in the Level collection can be custom-specified onto our **Nimbus® Acoustically Transparent Fabric**, to be wrapped around acoustic panels.
- Ask your sales representative for information regarding acoustic panel options.
- **Colors and scale can be customized**.
- Acoustical Panels are all sized to specifications.

NOTE: Metallics and gloss effects are not available on acoustic products.

Sibilance® vs. Nimbus®

We currently offer two acoustic materials, each designed to address specific performance needs:

SIBILANCE®

- Thick felt wallcovering
- Used for all custom and standard repeat acoustical wallcoverings
- Derived from 100% post industrial recycled polyester
- Provides an acoustically rated noise coefficient (NRC) of .20
- Highly resistant to shrinking and stretching
- Coated for maximum stain resistance and lightfastness (has a lightfastness rating of 5)
- Antimicrobial Technology: Silver & copper ions incorporated into the polyester fiber naturally attack microbes
- Does not absorb moisture making it a durable and long-lasting solution
- Easily installed using traditional wallcovering paste and butt seams leaving no visible overlap
- Dye-Sublimated printing

Sibilance®

NIMBUS®

- Thinner, lightweight fabric
- Acoustically transparent; used to wrap around acoustically-absorptive fiberglass panels
- Wrinkle-resistant, warp knit polyester
- 40% recycled content
- Dye-Sublimated printing

Nimbus®

L12-1505 Offset - Forest Green | Shown on Sibilance® as Custom Acoustic Wallcovering

Custom Installation | Shown on Nimbus® and Wrapped Around Fiberglass Panels

LSAW002-02 Agate - Layered Teal (from Series 11)

Example of Standard Repeat Acoustical Wallcovering featuring
LSAW006-01 Wood Chevron - Sunbleached (from Series 11)

Standard Repeat Acoustical Wallcovering

- Standard Repeat Acoustical Wallcoverings are a curated selection of repeat-pattern designs printed via dye-sublimation on our Sibilance® High Performance Acoustical Felt.
- They can be found both in the Level books and online, and samples are available if needed.
- Although not customizable as-is, custom options are available (ask your sales representative for details).
- Sold by the yard.

Example featuring LSAW005-01 Brick Wall - White (from Series 11)

L12-2001 Wildflowers - Full Bloom | Shown Printed on Targa® Panels

Protect Your Walls

Level Digital Wallcoverings is excited to announce the arrival of our newest material: **Targa® Rigid Wall Protection**.

Targa® is a clear PETG sheet, .040" thick, with the **image printed on the back side of the material, encapsulating it against the wall and protecting it from wear and abrasion**.

These **rigid panels absorb the impact** from objects like hospital gurneys, luggage carts, and more, maintaining the integrity of the wall.

Targa® is an ideal solution for wall surfaces that are susceptible to damage in high traffic areas:

- Hospitals & Medical Offices
- Restaurants & Dining Halls
- Hotels & Airports
- Schools & Universities
- Gyms & Fitness Centers

Any design in the Level collection can be specified with Targa® as its base material.

Targa® is available in both 4' x 8' & 4' x 10' sheets and is precision-trimmed at the factory. It can be installed with the panels butt-fitted together or with optional trim pieces available through Level.

NOTE: Gloss effects are not available on Targa®.

Stain Resistant

Impact Resistant

Withstands Most Scratches & Gouges

Bacteria & Fungi Resistant

Easily Cleanable with a Wide Range of Cleaners

Class A Fire Rated

Meets CA 01350 Standard for Indoor Air Quality

Completely free of Phthalates, Both Halogenated and Bromated Fire Retardants (HFR & BFR), Persistent Bio-accumulative Toxins (PBT), Bisphenol-A (BPA)

Targa® Cross-Section

Samples

While digital print technology allows for unparalleled design freedom, its print-on-demand nature necessitates some unique sampling and proofing solutions. Our goal is to provide the most accurate, beneficial, and cost effective tools possible to help you visualize the final product at various stages of development.

Please visit the **findyourlevel.com** or contact your sales representative for more information regarding these tools or to order samples.

Environmental and Health Conscious Products

Level is committed to creating products that contribute to a clean, healthy, and safe environment. We strive to improve the durability, cleanability, and functionality of all the wallcovering solutions that we provide. Many of our products already boast a variety of health-conscious attributes:

- Anti-Microbial Properties
- Bacteria, Mold, & Fungi Resistance
- Superior Stain & Abrasion Resistance
- Easily Cleanable with a Wide Range of Cleaners
- Impact Resistance

Additionally, we carefully select our suppliers and raw materials with the same considerations:

SUBSTRATES

Level products are manufactured with PVC vinyl wallcovering materials that have met the sustainability certification created by the Wallcovering Association (WA) in partnership with NSF International and ANSI (American National Standards Institute) called the NSF/ANSI 342.

All PVC vinyl wallcovering substrates meet the Federal Specification for Type II durability as well as California Prop 65 compliance with Cadmium and Lead-Free formulations which also meet stringent EU toxicity standards.

PVC-Free substrates are also available from FSC Certified Paper with Type II durability in accordance with Federal Specification and with CHPS Section 01350 Specification and REACH compliance for EU toxicity standards.

INKS

We proudly use the latest digital print technology including clean UV-LED inks with low VOC's in compliance with CHPS Section 01350 specification.

Our digital print equipment uses UL GREENGUARD Gold Certified inks (Certificate Number: 72318-420) and meet the California Department of Public Health's (CDPH) Standard Method using a Classroom Environment and Office Environment; tested in accordance with the UL 2822 method showing compliance to emission limits on UL 2818 Sec. 7.1 and 7.2.

COATINGS

To aid in the cleanability and durability of our finished goods, our products may be laminated or top-coated with UV curable coatings to provide important resistance to common concerns in high-traffic commercial environments. The coating formulation is heavy metal free with attributes that have been tested and proven to kill bacteria and prevent mold spores from forming, even in the most humid environments.

Our UV-coating also contains fire suppressing chemistry and has been tested and proven to contribute towards achieving Class A fire ratings through ASTM E84 test methods.
